I highly recommend this clinic! What I was most impress with, other than the fact that my sister got 2 shots and left with prescriptions for everything to make her better, was the fact that they didn't pad the bill by giving her a chest x-ray, as the treatment would have been the same with or without one. For me it was hard to find a place that I trust to take care of me. And because Davam Urgent Care is so good, they became quite popular over the years judging by the number of people who want to come here , so the wait time can be a bit long but not unreasonable.
