ELM and Commons: What does the Future Hold?

I can also recall many evenings spent helping to beat out fires in the holiday seasons of the 1970s.

100 years of forestry

The event will be recorded so if you cannot make it to the live webinar you can watch it afterwards via the same link and also via our website and YouTube channel. .

Trump Administration Set To Lift Protections On Alaska's Tongass National Forest

Without a great deal more evidence, I would be reluctant to believe that a change involving legislation would achieve any better solution than the present regime. When one considers that this campaign was successfully brought without the aid of social media or the Internet it is a very impressive undertaking.

100 years of forestry

Contrast this with the really large fires which were not uncommon in the Forest 50 years ago. The New Forest was proposed as a UNESCO in June 1999, but UNESCO did not take up the nomination.

New Forest

Before comments and questions from the floor, Dominic May, Official Verderer, challenged the public authorities to control creeping damage from recreation overuse to avoid conflict with the unique qualities of the Forest.

The Future of Forests

I clearly remember the great fire of the summer of 1959 which burnt from Furzley at Bramshaw nearly to the A36 at West Wellow.

In My View: The Future of the New Forest

The government is going to have to lay down clear rules as to how it wants its New Forest properties managed and whether economics or support for the community is to be paramount.

Grow a 100

The upheld the first challenge; but an appeal against the decision was then heard by the in Autumn 2006.
