Danny Schechter, and activities in Africa have also contributed to exploitation, conflict and poverty for ordinary people while enriching African and foreign elites. This evidence supports the idea that the species of *Homo erectus* that originated in Africa was the first to successfully migrate and populate the rest of the world. The capital of Senegal, Dakar, is located on the Cap Vert Peninsula, which is most extreme western extension of the African continent.

## Acceptable

A large percentage of the population follows animist religions with many different traditional beliefs.

## 7.3 West Africa

Featuring a lively writing style that embraces all the diverse theoretical interpretations of geography, *Survey of Subsaharan Africa* is ideal for advanced undergraduate courses in African Geography or African Studies. Scholars, scientists, and politicians believe climate change will negatively affect the economic and social well-being of Africa more than any other continent. Indeed he suggested infant economies be protected from the chill winds of the financial gales as we did in our development but prevented in others.

## Political Geography

He advocated for a concept that would pull the African countries together, oppose neocolonial activity, and increase trade and interaction within the African community. Today Egyptologists, archaeologists who focus on this ancient civilization, have learned a great deal about the rulers, artifacts, and customs of ancient Egypt. Subsistence agriculture is the main economic activity for about 90 percent of the population.

Some of the inspiration for this movement came from the First World War in which European countries had relied on colonial troops for their own

defence. Because of this, the international community has focused its attention on the continent.

### **Africa: Human Geography**

The question of political transition and possible economic reform in Algeria, Libya's threat to regional stability and the future of Morocco and Tunisia will all affect strategic decision-making within these countries as well as abroad.

### **7.3 West Africa**

Simplistic views at their simplest and crudest, they are even racist, intentional or not offer little understanding of the complexities of causes, let alone a platform from which to form ideas on how to move forward. A warlord by the name of Charles Taylor became a major player and eventually took control of the government in 1997 following a bloody insurgency in the capital.
