Sigmund Freud: Psychology And The Influence Of Psychoanalysis

Cite this chapter as: Strozier C.

Freud and his Followers

He hoped other people would take on his ideas to prove or disprove them. The tragedy is that alternate explanations are more likely correct and far more productive.

Sigmund Freud's Life and Contributions to Psychology

Note: The Research Gap Worksheet is filled out to provide an example for you to follow.

Sigmund Freud

Moreover, all our papers are scanned for plagiarism by our editor before they are ready for submission. This was published prior to Trump publicly speculating about running for president in the 2012 election so this was written before anyone considered Trump even a long-shot candidate for president. As he continued to develop and refine his thought, he garnered renown both in Europe and in the United States, as well as a wide array of students, including Carl Jung, Alfred Adler, and many other prominent scientists and thinkers of the early twentieth century.

10 Things About Sigmund Freud You'll Wish You Hadn't Learned

The anal-retentive personality is stingy and stubborn, has a compulsive need for order and neatness, and might be considered a perfectionist.

Was Freud right about anything?

Use this sheet as a template by deleting the highlighted portion and replacing it with your own content. Freud was a practicing psychoanalyst for much of his career, often treating high-profile patients, and writing about their symptoms using pseudonyms.
