The coins of Hadrian must represent another, earlier temple of the same type and containing a cult statue of the same configuration. Finally, Dionysios turns his account of the shared history between the two communities to his political advantage by using it to buttress his authority as bishop of a city with dual apostolic founders. Another sign that must surely mark the return of the Isthmian Games to the sanctuary is the renovation of the theater for resumption of musical and oratorical competitions.

Perhaps more detailed analyses of the Roman deposits excavated by Broneer will alter the picture suggested here, but at present there is no evidence to show that the area around the Temple of Poseidon and the first Palaimonion precinct was the scene of large festive gatherings before the middle of the 1st c. Literally, the verb refers to making a plant flower, as Paul uses it in 1 Cor 3:6—7.
