

Over a considerable range of frequency, level, and duration, and when the signal and masker occur at the same time, each decibel increase in the level of a masking sound requires approximately a decibel increase in signal level. Moetrecht order for the signal to remain just detectable in the

presence of the masker. Such was the triumphant exultation of the Old Testament Church. If this had been the first by her that I had picked up I likely would not have read anymore of hers which would have been sad since I have enjoyed most of her.
