Reading Research Effectively

Contributors should address the substance of issues and not attack individuals. Book Reviews: Those interested in reviewing books or other materials, please send by e-mail a brief proposal to Katrin B.

Articles

Highlighting Key Points and Taking Notes Taking notes as you read will save time when you go back to examine your sources. Current issues are not entered into the database for 2 to 5 years.

Articles and Databases

Scholar is a full-text academic journal database established by Kyobo Book Centre which is the top bookstore in Korea, and Hakjisa which is a well-known publisher in the field of psychology and education.

Databases and Resources in Scholar OneSearch

Where relevant, JPER encourages authors to share their research data in a suitable public repository subject to ethical considerations and where data is included, to add a data accessibility statement in their manuscript file. Reflecting on What You Have Read Write down thoughts that come to mind that may help clarify your understanding of the research problem.

Articles and Databases

Authors should follow for preparation of accepted papers. They reveal how the author s interpreted the findings of their research and presented recommendations or courses of action based on those findings. Wilson Social Sciences Full Text H.

Articles

References The references list the sources used by the author s to document what prior research and information was used by when designing their study.
