U.S. and Russian Policymaking With Respect to the Use of Force

Numerous challenges must be overcome as well as determining the status of Chechnya, including security, return of refugees, reconstruction, rebuilding the economy, and dealing with corruption.

Crisis in Chechnya â€” Global Issues

On Sunday, February 26, redeployment of the last Marines serving with the MNF from their positions in Beirut to ships offshore was completed.

Baltimore Sun

If one were to swallow uncritically the expert testimony of the media pundits, the outgunned Army of the Chechen Republic of Ichkeria currently considered by Russian sources to consist of 1,200 mountain fighters engaged in a life-and-death struggle with 80,000 Russian Federal troops had somehow developed the logistic capacity and the desire to project hundreds of apparently unneeded fighters across Eurasia and through American-controlled air space over Afghanistan to defend illiterate Pashtun-Deobandi-Taliban puritans. The November 26 operation, which was planned and organized by the Russian Federal Security Services, was a total fiasco. Allah's Mountains: The Battle for Chechnya.

Crisis in Chechnya â€” Global Issues

Russia Confronts Chechnya: Roots of a Separatist Conflict. This also indicates that this policy option most likely had not even been discussed at the Defense Ministry's Collegium.

Second Chechnya War

There was no real understanding of the nature of the conflict, of Chechen history and of the fact that the Chechen case was unique compared to other ethno-political problems in the Russian Federation. There were only few and faint-hearted attempts by Western governments and international institutions to highlight and criticise violations of international law and human rights - let alone do something to enforce these principles.

Chechen

Others believe the war ended in 2003 with the passage of a Moscow-backed constitutional referendum and the election of pro-Moscow president Akhmad Kadyrov, while some consider the conflict on-going.

Chechnya: The ethno political flashpoint plaguing a former Super power

On 17 November 1999, Russian soldiers dislodged separatists in , the symbolic separatist stronghold in the first war; dozens of Chechen fighters and many civilians were reported killed, and the village was levelled in the bombing. To the extent the United States and Russia are still engaging in bilateral arms control, like the Treaty of Moscow, it is largely to manage the strategic relationship in a period of transition marked by continuing nuclear reductions and the likely introduction of limited ballistic missile defenses. Second, Russian Vice President Rutskoi visited Kishinev and Tiraspol in the middle of July and unexpectedly brokered a coalition government in the trans-Dniester region.
