

Invertebrates in biomedical research - January 1985 through July 1988 : 503 citations

U.S. Dept. of Health and Human Services, Public Health Service, National Institutes of Health, National Library of Medicine - Robert John Brent

Description: -

- Invertebrates -- Research -- BibliographyInvertebrates in biomedical research - January 1985 through July 1988 : 503 citations

- Current bibliographies in medicine -- no. 88-8.

CBM -- no. 88-8.Invertebrates in biomedical research - January 1985 through July 1988 : 503 citations

Notes: Shipping list no.: 88-471-P.

This edition was published in 1988

Governing knowledge in the scientific community: Exploring the role of retractions in biomedicine

Seeks to advance understanding of nervous systems, including their relation to behavior, by bringing together scientists of various backgrounds and by facilitating integration of research all levels of biological organizations. A PDF version of the list is available at. *Macromolecules* 2013, 46 7 , 2628-2635.

How to Analyze the Results of Linear Programs—Part 2: Interpretation

We assessed the safety and efficiency of two viral vector systems lentivirus and adeno-assocd. December 26-31, 1968 Garfield, E.

How to Analyze the Results of Linear Programs—Part 2: Interpretation

In collaboration with Jeff Zink, the Stoddart group describes in *Angewandte Chemie* working supramolecular machines trapped in glass and mounted on a film surface. Malham SK, Lacoste A, Gelebart F, Cueff A, Poulet SA. Publishes: *Advances in Physiology Education*, *American Journal of Physiology* and all of the sections, *Comprehensive Physiology*, *Journal of Applied Physiology*, *Journal of Neurophysiology*, *News in Physiological Sciences*, *Physiological Genomics*, *Physiological Reports*, *Physiological Reviews*, *The Physiologist*, *Physiology*.

Does Good Science Lead to Valuable Knowledge? Biotechnology Firms and the Evolutionary Logic of Citation Patterns

Users can browse through the taxonomical hierarchy, map geographic distributions, and use an interactive key for identifying species.

Cephalopods in neuroscience: regulations, research and the 3Rs

While some implementations of electronic textbooks have not been popular with students, their promise is obvious. Provides biographical and publication information about deceased National Academy of Sciences members.

Governing knowledge in the scientific community: Exploring the role of retractions in biomedicine

Publishes FEBS Journal, FEBS Letters, FEBS Open Bio, and Molecular Oncology. It awaits development and exploitation. Chapter 3: General Sources Introduction This chapter describes selected sources that are relevant to biology in general, with no attempt to be comprehensive.
