Energy Programs / Energy / Home

Green buildings is an approach that focuses, among other, on energy efficiency of the buildings. To stay informed of program updates, please sign up for our. Florida Compliance Air and Duct Tightness Forms: Effective July 1, 2017, every new home in Florida must be tested for building air tightness.

Missouri Home Energy Certification Program

It is estimated that the buildings sector accounts for approximately 40% of total energy consumption in Vietnam. Energy Assurance Grant Program Using American Recovery and Reinvestment Act funding, the FDACS Office of Energy worked with several state agencies to review and strengthen Florida's Energy Assurance Plan by incorporating recent and planned smart grid improvements and renewable energy facilities. He obtained his first degree in Electronic Engineering from Hanoi University of Science and Technology HUST in 1995, then Master of Engineering degree 1997 and Doctor of Engineering degree 2001 from Asean Institute of Technology AIT in the field of Industrial Engineering and Management.

Energy Efficiency Training Courses, Training & Certification

Second, the EUI values tend to change a bit from year to year or quarter to quarter due to improvements in the EnergyPlus simulation tool, bug fixes in DOE's simulation infrastructure, updated site-source conversion factors, differences in construction weighting factors, etc. Examples of projects that were supported as a result of this program include replacement of indoor lighting and light fixtures, insulation upgrades, replacement of HVAC units and ducts, installation of energy management systems, and replacement of security lighting on the building exterior. The new Multifamily New Construction program provides the needed flexibility for partners and program administrators, ensures that requirements are optimized for each project, and improves consistency with codes and market incentive programs.

Building Energy Codes Program

In order to achieve a certification, interested home owners should work with certified auditors.

ENERGY STAR Certification for Buildings

Farm Energy and Water Efficiency Realization The Farm Energy and Water Efficiency Realization Program was a pilot program in Suwannee County that provided on-site energy and water audits to farms.

ENERGY STAR®

The approach will be measured using the HEScore, HERS Index, CWL Efficiency Score, or as modeled by an approved software program.
