Certain Women movie review & film summary (2016)

For a time she was married to a successful actor, who she lost to cancer, and wrote about Summary: As actor David Wheaton dies of cancer, his daughter joins him on the Portia and as they re-read the unfinished script of Emma's estranged husband Nik on King David, they consider the parallels with their own lives, and struggle to come to terms with life in its brokenness, and its joys. And his wife Abigail is the wise friend, even after the divorce, just like the wise Abigail in the Bible story! The father's name is David!
