Compared to the agonistic approach, critical art is a collection of different artistic practices that point to the existence of alternatives to the current post-political order. The later censorship enforced by the government indirectly confirms that the subversive potential of this artistic project was very well understood. Sculptures: in the round, bas relief, high relief, mobile, fountain, kinetic or electronic, in any material or combination of materials.

The Return of the Political and Art Censorship

Art can offend one's political or religious beliefs, one's ethnic or social affiliation, one's aesthetic or moral senses. The permeability of these boundaries points to a double relationship of exchange that is established between politics and art.
