## Today in Energy

The central government-run NTPC announced in December 2018 that it would add 250 MW of capacity to its coal-fired power plant in the Kokrajhar district. EPC has about 50 industrial customer based. The renewable energy Act Act 832 , passed in 2011, seeks to create the enabling environment for attracting private sector investment in the renewable energy sector to ensure the achievement of the 10% policy target.

## Sector Overview

Accordingly, all views, positions, and conclusions expressed in this publication should be understood to be solely those of the author s. Proposal Documents seen by Dawn suggest the government has desired and requested all Discos to consider a proposal to appoint Pepco as their managing agent through a proper ten-year binding agreement, extendable for another 10 years, to improve the management of the power sector in general and the power distribution sector in particular and to allow the Managing Agent to effectively and properly carry out the functions for which it had been originally set up. Substation protection, automation and integration with Schweitzer Engineering Labs.

## Sector Overview

After the Saubhagya Scheme, Assam has connected 100 percent of its population to power. The period set the stage for the division of the electric power grid on the basis of two frequencies, 50 Hertz in the east, used by early generators supplied by German equipment makers and 60 Hz in the west, where generators were supplied by a predecessor of U. Priority should be given to high-loss DISCOS like Pesco, Mepco, Hesco, etc where initial grounding already exists through the earlier US-aided pilot projects.

## TIMELINE

A renewable energy master plan is currently under development. The smaller gas distribution companies, such as Shizuoka Gas, Hiroshima Gas, Chubu Gas, and Hokkaido Gas, to name a few, have no obligation to provide access to their infrastructure. Kartikeya Singh is a senior fellow and deputy director of the Wadhvani Chair in U.

### **Pepco's revival planned to monitor Discos**

The Power Holding Corporation of Nigeria PHCN has since been unbundled to 18 successor companies and the Nigerian Electricity Regulatory Commission NERC has been established to ensure the orderly development of a competitive power market, safe and adequate production of electricity and to promote competitive private sector participation. Some steps have been taken in this respect but these were based on mediocre calculations. © 2019 by the Center for Strategic and International Studies.

### **Energy Regulation Board**

What is the role of NERC? Even residential use of natural gas was affected by the curtailment of gas used for residential lighting.
