Snow tires vs. winter tires

What we learned from this comparison between tread types is tires that keep snow packed into the tread face provide better traction than those that eject it. Winter tires work better than summer ones as soon as the temperature drops below 45°F.

How Do All

Bottom Line All-season tires for snow deliver a longer tread life, comfortable rides, and precise handling. Great business and offered a wonderful deal. These tests consistently rated the Goodyear Ultra Grip Ice2 better or as good as the Michelin X-Ice XI3.

Winter Tires: Myths and Facts :: Icy Road Safety

To confirm or bust this bias, we mixed two sets of Michelin tires, winter and all-season, and ran a few laps of the snowcross with the all-seasons in front and the winters on the back, then vice versa. Sunday, August 4, 2019 by NickinAKI have a set of KO2s on my 2018 Ram 1500 in stock condition.
