The State Park is a good location for possibly seeing an alligator, while is a designated national estuarine reserve.

## A Birding Guide to the Outer Banks

The link to the membership directory can also be found on the page. Food and feeder preference: Insects, fruits, and seeds. A healthy, diverse herp community indicates that an area can support the plants and insects herps need for food and that the area has a habitat available for a variety of wildlife.

## North Carolina Bird Photos

For many people, seashells are just part of the beach scenery--thousands of pretty but nameless objects strewn along the shore. Select your county and state from the drop-down list.

## Seabird on NC coast has fish stuck in its throat, video shows

Copperheads are the most commonly found backyard venomous snake in North Carolina. Bill: Black, long and stout.

**NC Wildlife**

Big game fish are cool.
