A community must be able to offer the resources to build these elements into its structure. They are likely to form small groups or cliques, each with a special identity for example, jocks, brains, preppies or geeks. The following suggestions are designed to help you teach children to not only value diversity but also to resist prejudice and discrimination.

Effective communication requires that an emotional bond form, however briefly, between the professional and the adolescent. Most adolescents in fact succeed in school, are attached to their families and their communities, and emerge from their teen years without experiencing serious problems such as substance abuse or involvement with violence. Ask a few questions before answering to get a clearer idea of what they really want to know and the ideas they already have on the subject.
