## Ontario Waste Management Association

The effluent from the secondary treatment system could be sprayed on cropland or forested land. They conclude that polymer hydrolysis was not the rate-limiting step in their system, and were able to achieve about a 35% reduction in volatile solids with a hydraulic residence time of 15 days.

## Barriers to implementing cleaner technologies and cleaner production (CP) practices in the mining industry: A case study of the Americas

In addition to hoisting potash ore to surface, the production shaft also provides fresh air ventilation to the mine and serves as a secondary egress.

## Dr. George A. Sorial: Publications

In addition, the information contained in paragraphs five through seven of Supporting Information of Note 25, Guarantees to the Companys 2017 Financial Statements is incorporated herein by reference. This Group has been operating as separate committees with formal contact being provided by the Chairman and Secretary of each committee.

## CIVIL

Geological Survey Water-Resources Investigations Report 99-4018C, p. An engineered slurry-wall has been constructed on the north, west, and south sides of the Cory TMA in the areas where near-surface aquifers could be impacted by mine waters.

## CIVIL

Proceedings: 48th Annual Canadian Geotechnical Conference, Vancouver, British Columbia, Sept.

## Ontario Waste Management Association

This water supply provides a sustainable source of process water for Cory milling operations without having any impact on other users of water in the area. Above the optimum pH, reactivity decreases because Fe precipitates as ferric oxyhydroxide; while below this optimum, the formation of Fe - OH the initial step leading to generation of active oxidants, equation 3 is inhibited.

### **Don Mackay**

Effects of capillary pressure and viscosity ratio on DNAPL retention and mobilization in a rough-walled fracture. The countries where we operate are parties to the Paris Agreement adopted in December 2015 pursuant to the United Nations Framework Convention on Climate Change.
