Fitch Family

We found this book important for the readers who want to know more about our old treasure so we brought it back to the shelves. Fitch is a sixteenth generation descendant of William Fytche of Wicken Bonhunt, County Essex, England.

He did much of the revising himself but also called on three others to help him — Ebenezer Silliman, Andrew Burr, and Captain Robert Walker. It was not until he made the first of several trips to England that he began to disentangle the true story of the family from the myths that have grown up around it. This important work presents in masterful detail the English ancestry from 1400 to 1632 of the four Fitch brothers who settled in Connecticut in the 1630s.

Thomas Fitch

He died the following year and is buried there. Apparently he was well regarded; he served as a state legislator.
