## Tables of roles

So the translation is correct for the 16th century, but not in the 21st century understanding of captain. Grapeshot Small balls of lead fired from a cannon, similar to shotgun shot on a larger scale. Squat effect Is the phenomenon by which a vessel moving quickly through shallow water creates an area of lowered pressure under its keel that reduces the ship's buoyancy, particularly at the bow.

## What's the Best Way to Clean Marine Rope?

Disrate To reduce in rank or rating; demote. Then open an empty WORD document on your computer and 'Ctrl' + 'V' to paste.

## Sailing Terms

Spinnaker pole A spar used to help control a spinnaker or other headsail. Canister a type of anti personnel cannon load in which lead balls or other loose metallic items were enclosed in a tin or iron shell. Loggerhead An iron ball attached to a long handle, used for driving caulking into seams and occasionally in a fight.

## The Rigging of a Sailing Ship

Either of these is good, but ordinary manilla is too stiff and bristly to work well for the beginner.
