## Climate change

But after more than a century and a half of industrialization, deforestation, and large scale agriculture, quantities of greenhouse gases in the atmosphere have risen to record levels not seen in three million years.

## Climate Change

The companies involved include ACWA Power, CWP Renewables, Envision, Iberdrola, Ørsted, Snam, and Yara. The physical realism of models is tested by examining their ability to simulate contemporary or past climates. It aims to become a resource for decision-makers to prepare more effectively for managing the risks of these events.
