However, such support is mainly related to detection equipment, in particular radiation scanners, and the implementation of the United Nations Conference on Trade and Development UNCTAD Automated System for Customs Data, an integrated customs management system for international trade and transport operations, which, according to UNCTAD, improves security by streamlining procedures for cargo control, transit of goods and clearance of goods. The number of States identified as having taken enforcement measures to secure the production, use, storage and transport of materials related to chemical weapons is 64, 63, 71 and 71, respectively, compared with 69, 72, 78 and 80, respectively, in 2011 and 45, 49, 56 and 65 in 2008. MPs will play a critical role in the SDGs target of eradicating AIDS by 2030 - shaping policies, passing laws, overseeing government action and authorizing financial resources.

The Committee recognizes that civil society can play an important role in the implementation of the resolution and, where appropriate, in helping to identify means to enhance the ability of others to implement the resolution. These outreach events covered the full spectrum of the thematic areas of resolution 1540 2004.

### **S/2016/1038**

The workshop will raise awareness of the issues among parliamentarians and equip them with knowledge of the Convention on the Elimination of All Forms of Discrimination against Women CEDAW and other international standards.
