## Intensive Culture on Northern Forest

There are however elements of this approach still being practised.

## Intensive Culture on Northern Forest

Mining timber is the next most important part of the industry, consuming just less than 2 million cubic metres of wood per year.

## Challenges for modern agriculture

The extent of these is unknown, though satellite surveys of part of the Eastern Transvaal indicate that woodlots may equate to 10% or more of the afforested area in the province. More than 80% of rural people in the Eastern Cape, 61. Rather than choose to provide the services itself, a policy which may prove to be unsustainable in the face of financial limitations, the government may choose to support beneficiaries through advice, facilitation such as for the formation of local cooperatives , and credit.

## Silviculture in the United States: An Amazing Period of Change over the Past 30 Years

However, the interactive effects of warmer temperatures e.

## Unpublished Reports and Papers

They work two to five days a week and produce one harvest a year. These are also the source areas of many of the rivers on which the country relies for its water supply.

## Intensive Culture on Northern Forest

However, in relation to contractors and particularly those involved in core forestry activities such as planting and harvesting additional measures may be necessary.
