Raisonne info: Measurements: Literature: Auction Location: 16145 Hart Street, Van Nuys, California, 91406, United States 9. This book was written along time ago 1964 and it shows, rather than being a classic I found it has a somewhat patronising style and endless rambling on which doesn't really add anything, at the end of one paragraph it sums it all up when it says 'All this is part of the eclecticism characteristic of modern art in general, and needs no further comment' - so why on earth did he spend the paragraph doing exactly that! Many of the lots offered for sale carry a reserve and are confidential.

**9780500200148: Modern Sculpture: A Concise History (World of Art)**

Drawing on the knowledge of a lifetime of study, and the understanding of one who himself participated in the creative adventure of modern art, the late Sir Herbert Read traces the development of modern sculpture from Rodin to the present day and brings order into the apparently chaotic proliferation of styles and techniques during this period. It is popular in China, Japan, Canada, Sweden, and Russia.

While it lacks a bibliography, it contains substantial references in the endnotes. The illustrations are another matter.
