Reeder, Sharon J.

The book provides good basic anatomy and physiology on the reproductive system. Study questions at the end of each unit have been updated. The new format provides greater readability, and many new photographs and drawings have been added to reinforce major points and to provide quick reference.

BASIC MATERNITY NURSING 6E

This is also a handy reference to all nurses researching current trends and issues within the profession or those who are just curious about the statistical makeup of the nursing profession. Women want to know if it is safe to have babies in their late thirties and early forties. The conference on Aging, Reproduction, and the Climacteric was sponsored by the American Fertility Society, The National Institute on Aging, and the National Institute of Child Health and Human Development.
