If you have extra space to spare, it might make sense to buy lower efficiency panels since they are cheaper than higher efficiency and can produce the same amount of electricity.

## **How Many Solar Panels Do I Need?**

Speed Disclaimer: Actual vehicle speed varies based on load, use and environmental conditions. However, the manuals you can purchase at the Manual Store are different. Once you determine the kW size of the solar panel system you need, take a look at the amount of space a low, medium or high-efficiency panel will take up on your roof.
