According to this, he was not out to question the sovereign power of the collective, as Biermann and Havemann were to be accused of doing, but he does imply, like them, that individual and collective interests may not, or even should not, be identical, when he suggests that the innovative, progressive individual should not be inhibited from making his contribution to society. Waren die Walder und Felder des Barons sein Vaterland? Der eigenwillige Held machte den Roman berühmt. In Katzgraben, as was shown, virtually the whole village is characterized in this way, so that each member is readily associated with a social class or group, which in turn determines his role in the ideological conflict.
