Dark Feasts by Ramsey Campbell

All of the pages are intact and the cover is intact and the spine may show signs of wear. Near Fine in Fine dust jacket. Book is straight, square,

tightly bound appearing gently read and handled , uniformly age toned and free of any PO markings and blemishes.

DARK FEASTS

While in stories such as *Out of Copyright* or *The Trick* you can see why later critics would hail Campbell as the modern day heir to MR James, Campbell's terrors are very much his own, with tales like *The Companion* and *Down There* coming as close as one can to capturing the essence of nightmares in print. But with *Dark Companions* published in 1982 , things are slightly different. He soon discovers, though, that the crimes he imagined have subsequently occurred, and that only by writing these visions down can he stop more from occurring.
