### These Electric 'Crate Motors' Will Keep Engine Swaps Alive

Siri, iPhone and Apple Music are trademarks of Apple Inc. Hunstable says the motor can be used for any kind of electric application, from generators in windmills and water pumps to cars to air conditioners. You can cruise at 55 mph all day, no problem, but don't expect to reach 60 mph so you can get out of the way of that Hummer.

### electric motor

I was able to get the very center, splined section, of the brake out, and use it to make the motor half of the coupler. But eventually that puppy grows into a gross old smelly dog. The Ugly: These always have to be run under load.

### New electric bike mid

Apple CarPlay is a trademark of Apple Inc.

### How Does An Electric Motor Work

I've never got around to trying to make or sell it and most likely never will.

### Build Your Own Electric Car! : 9 Steps (with Pictures)

The difference is that PMSM has sinusoidal back EMF whereas BLDC has trapezoidal back EMF.
