## Women, Poverty, and AIDS: Sex, Drugs, and Structural Violence

HIV persists in the bloodstream and white blood cells.

## List of HIV Infection Medications (114 Compared)

Has a currently accepted medical use in treatment in the United States. Cleaning does not always kill HIV or hepatitis.

## HIV/AIDS

HIV can infect any person, no matter their age or gender or sexual preference.

## Women, Poverty, and AIDS: Sex, Drugs, and Structural Violence

In a study of cities with high levels of HIV, more than half 56% of PWID with HIV reported being homeless, 25% reported being incarcerated, and 16% reported having no health insurance in the last 12 months. Abuse may lead to moderate or low physical dependence or high psychological dependence. What CDC Is Doing CDC and its partners are pursuing a high-impact prevention approach to maximize the effectiveness of current HIV prevention methods and to increase what we know about the experiences of PWID and the risks they face.

## HIV Among People Who Inject Drugs

To kill most HIV and hepatitis C virus, leave bleach in the syringe for two full minutes.

## Sex and drugs

He said that many times, guys find it helpful to connect with each other and talk about personal things related to sex and relationships. For more information, email Christopher Powers at , or find the event on the Strut website.

## Search

Meth can be injected, which also increases HIV risk if people share needles and other injection equipment. Drug and alcohol use reduces condom use and safer sex practices. To reduce the risk of HIV and hepatitis infection, never share any equipment used with drugs, and keep washing your hands.

### **Sex and drugs**

D There is positive evidence of human fetal risk based on adverse reaction data from investigational or marketing experience or studies in humans, but potential benefits may warrant use in pregnant women despite potential risks. Drug interactions can cause serious side effects or dangerous overdoses.
