Refugees and Agricultural Development in Tanzania

Taking an ethnographic perspective, this author examines the consequences of naturalization and the ways in which former refugees conceptualize and utilize their newly acquired status. Tanzania has accumulated a lengthy experience of refugee settlement by supporting a large refugee population for the last 25 years or so equivalent to about one per cent of its population at any one time.

Refugees and Agricultural Development in Tanzania

Athens Technological Organization ATO was a non-profit organization established in 1958 to further technology and scientific research on any subject which can contribute to the improvement of human living conditions, technical and economic development and the training of people capable to pursuing these purposes. Since 1965, ACE has hosted on its premises the Headquarters and Secretariat of the World Society for Ekistics WSE, an independent organization, whose goals and objectives are compatible with those of ACE.

Refugees and Agricultural Development in Tanzania

Gradually it turned into a printed journal, including original articles, covering many more needs of interested people around the globe.

Evolving approaches to planning and management of refugee settlements: The Tanzanian experience on JSTOR
