### Yes, Gypsies lag in education, but the reasons are complex and cultural

For there to be true long-term success necessitates formal training. She has always found this method a bit disjointed and has wanted to be much more involved in educating these students and finding ways they can take part more fully in her classroom. The process involves fundamental changes in the work-lives of teachers, with a significant impact on their identity.

### Inclusive Education: Definition, Examples, and Classroom Strategies

To support the promotion of the right to education for children with disabilities through reliable and cross-nationally comparable data, UNICEF and the Washington Group are working on the development of a survey Module on Inclusive Education to assess the school environment and participation. This discussion paper explains that much more needs to be done for children with disabilities living in situations of armed conflict, and offers evidence-based recommendations.

### Frequently Asked Questions on Inclusion

The principle of inclusion is at the core of the Strategy and, accordingly, the focus of current provision is on the development of a more inclusive school environment through the whole school planning process, teaching practice, admissions policies, codes of behaviour and whole school evaluation.

### ERIC

This could be related to findings about attitude — they have a higher self-concept, they like school and their teachers more, and are more motivated around working and learning. Additionally, parents of regular ed students held a decidedly positive attitude toward inclusive education. Research indicates that the needs of students who are gifted can be met in the inclusive classroom under certain prerequisite conditions: 1 the students are appropriately grouped, either in clusters or some other homogeneous arrangement; and 2 the students receive an appropriately differentiated curriculum.

### Education of Traveller children

Is it possible to meet the needs of gifted students in the regular education inclusion classroom? She feels very good about how this is coming together and how excited and happy the children and their families are feeling.

### **Education of Traveller children**

This will motivate students to learn more about the diverse culture of India, its knowledge system and tradition and also to sensitize them on human values, empathy, tolerance, human rights, gender equality, inclusion, and equity which will develop respect for diversity. They make greater academic gains in reading and math. This is, by far, my biggest challenge.
