

On-Street Parking (Amendment No. 2) Bye-Laws (Northern Ireland) 1993 (Statutory Rule: 1993: 387)

Stationery Office Books - Northern Ireland Assembly

Council Response - Draft Clean Neighbourhoods and Environment Bill	
The purpose of this consultation exercise is to invite comments on the draft Clean Neighbourhoods and Environment Bill (Northern Ireland) as set out in Section 2 of the consultation document. The main purpose of the Bill is to improve and strengthen existing legislation to help Councils deal more effectively with a wide range of problems associated with local environmental quality.	
Issues covered by the Bill include litter, fly-posting and graffiti, dog control, noise, statutory nuisance, food premises refuse, gully orders, nuisance parking, abandoned vehicles, abandoned shopping trolleys and fires for offences relating to pollution.	
Section 1 of the consultation document (Consultation Issues) provides an outline of the measures in the Bill and invites comments on same. The Bill is divided into 5 distinct parts. The following tables look at each part separately and contain comments on the provisions contained within the Bill.	
Part 1: Gating Orders	Response
Issue 1: Councils are invited to comment on the provisions concerning Gating orders in Clause 1: <ul style="list-style-type: none"> Gating orders Effect of gating orders Issuance and revocation of gating orders Procedure for orders under this Part Validity of gating orders Publication and availability of gating orders 	<p>BCC welcomes the proposal to make a specific power in respect of gating orders and any process which will streamline and speed up the current system. The Council has no objection to the transfer of responsibility for making such orders to district councils. Belfast City Council has been involved in a pilot alleyway scheme involving over 200 gates and is experienced in the existing system, whereas the responsibility for the statutory process lies with DfC, leads to delays and frustration on the part of residents, etc.</p> <p>However the Council is concerned about the resource implications that such a new power would have in terms of increased administration, publication of notices, legal advice and local inquiries. The resources for the creation, operation and maintenance of gates themselves are also very limited as there is currently no central government funding for such schemes, this is something that central government needs to address, if gating schemes are to be used widely to reduce antisocial behaviour.</p>

Written Answers.

Where a child is being looked after by a local authority they are required to advise and assist the child with a view to promoting his welfare when he ceases to be looked after by the authority. Children deprived of a family environment - article 20 Children in the public care 259.

Report on the Taxis Bill (NIA 4/07)

Similar legislation exists in the Clean Neighbourhoods and Environment Act 2005 in England and Wales in relation to alley-gating; vehicles, by making it an offence to offer for sale two or more vehicles or to repair a vehicle on the road as part of a business — the 2005 Act allows for the immediate removal by local authorities of abandoned cars; litter, with respect to the dropping of litter in lakes and waterways and the issuing of litter clearing notices and litter control notices to businesses; fly-posting and graffiti, in relation to removal notices and the selling of spray paints to minors; controls on dogs with dog control orders; and noise from alarms and private and licensed premises. They must also have regard to the principle that delay is likely to be prejudicial to the child's welfare.
