Ottoman Empire

These artisans were trained in and , and continued building and decorating in Byzantine style, which had developed out of and. The oldest Islamic structure in Indonesia are parts of the royal palace in Sultanate of Cirebon. The historian and politician thoroughly discusses both concepts in his book.

Zagori

When the qibla was changed to face towards Mecca in 624, a similar portico was added on the south side, facing towards that city. A shaded portico supported by palm trunks stood on the north side of the courtyard, in the direction of prayer the , which was initially towards. They were mostly built during the 18th and 19th centuries by local master craftsmen using local stone.

Zagori

Over the rest of the 7th century and in the 8th century the mosque was repeatedly expanded to include a large flat-roofed prayer hall supported by columns a hypostyle hall with a central courtyard.

Islamic architecture

The number of minarets by is not fixed; originally one minaret would accompany each mosque, but some architectural styles can include multiple minarets.

Islamic architecture

The minaret of the Great Mosque of Kairouan in Tunisia early 9th century is considered to be the oldest surviving minaret in the world.

Ottoman Empire

Several of the Abbasid mosques built in the early ninth century had minaret towers which stood at the northern ends of the building, opposite the

central mihrab.

Islamic architecture

There are scholars that also believe that the distinguishing features of the Islamic Architecture style were not necessarily found within the architecture, but were rather environmental markers, such as the sounds of prayer, the city around it, the events that occurred there.
