## Literacy

Of particular benefit would be research

assessing the effects of the interactions among various learning opportunities, as well as the particular contributions of different kinds of learning experiences to teacher knowledge and practice. This class provides students with the opportunity to receive occupational instruction and realistic on-the-job experiences that cannot be offered in the classroom setting.

## Real World Math: 6 Everyday Examples

This will detail the specific services and minutes each student receives, as well as any accommodations and modifications that are available for them.

## Course Descriptions

BIO 521 Biology for Secondary Teachers, 7-12 This course presents new approaches for teaching biology to students in grades 7-12.

## Course Descriptions

It is designed to assist participants in preparing materials for their own classrooms. The themes of the course align with the Anabaptist Faith Practice Statements of Lancaster Mennonite School.
