Muzafer Sherif

APA Style References Sherif, M. With his important contributions in the study of social norms, attitudes, self concept, group relations, and other areas, Muzafer Sherif was a key figure in the discipline.

The Robbers Cave Experiment: Intergroup Conflict and Cooperation

Peoples own beliefs or stands on a particular subject fall within a zone called the latitude of acceptance. Once the three latitudes and ego-involvement have been identified, a cognitive map can be constructed which consists of a scale that represents the relationship between each of the three latitudes.

Social Judgment and Intergroup Relations

Social judgment theory also omits and ignores source credibility, another factor that can greatly influence attitude change. Prejudice became apparent between the two groups. In this phase it was intended to bring the two groups into competition with each other in conditions that would create frustration between them.

Robbers Cave Experiment / Realistic Conflict Theory

In 1947 he published his first book, the Psychology of attachment, ego, co-written with Hadley Cantril. They tested its effects using simulation models and studies, considering the physical phenomena in the real world, psychologists must do the same by vizier, not standing at a distance. The boys tended to characterize their own group highly favourably and the other group very negatively.

Some Contributions of Muzafer Sherif to Sociology

Жизнь в СССР The Sheriff fled back to America shortly after his arrest in Turkey in 1945 because of the fear of more stringent and more punishment for his oppositional political views. Despite Sherif's influence in the Social Psychology academic scene, he remained stateless.

The Robbers Cave Experiment: Intergroup Conflict and Cooperation

Some groups converged on a high, some low and some in between. Sherif then obtained MA degree from the in 1928, where he also expressed his support for the modernization of Turkey during political debates and gathered interest in goal-oriented behaviour, or homic psychology as proposed by British psychologist.

Social judgement theory

Before Sherif returned to Turkey he traveled around Europe and visited Berlin, where he spent some time attending lectures under Kohler. Muzaffer Sherif 1906-1988 was professor and director of the psychosocial studies program at Pennsylvania State University.
