## Constructivism Movement Overview

The futurists were in favour of speed and technology, the lead of youth and somehow, violence. Indeed, many of the more radical artists of the prewar period experienced something of a crisis in addressing abstraction after WWI. They frequently had diagonal elements with circular and angled type and images.

## Constructivism

Rodchenko believed that his unusual manner of capturing the world could also reveal insights about the structures that govern reality and stimulate social awareness.

## Exposición

Most of the work speaks for itself, but I have provided explanations for those that call for it. Expand comments Comments are closed. The stately figure long stood in the middle of a large square, surrounded by a great amount of urban development, and a central area of the then Leningrad government and Communist Party the Smolny region.

## The influence of Russian Avant

Their posters were designed to be eye-catching and even shocking.

## Russian Constructivism

Following the philosophical concepts of psychologists like Freud, Surrealism claimed precedence for the irrational, for chance, for the uncanny, and for the unconscious. He wanted 'to construct' art. It was, however, not mass-produced, nor did it serve as a prototype for factory production.

## The influence of Russian Avant

There is a lot going on in the background but because of the choice of colours it does not feel busy or overcrowded. Best known for his unfinished

Monument to the Third International.
