### WILL O' THE WISP BOOKS

Yet the overall book was sorely disappointing.

### WILL O' THE WISP BOOKS

These lights followed a friend and me and we thought we were being chased by people, once we stoped running they stopped coming closer and just hovered about 30 feet out then they disappeared and reappeared behind us off and on till suddenly we recognised the trail we were looking for and made it out of the woods.

#### **Will o' the Wisp**

All of a sudden, residents start mysteriously disappearing from the island! The story starts out on a somber note with Aurora having just lost her parents and being sent off to live with a grandfather she's never met before. We had a good time when we were not in it.

### **What Is Will O' The Wisp? An Illuminating Folklore Guide**

Regardless of their true origin or nature, my take is that if I were, for some odd reason, out traveling in the darkness and I saw a will-o'-the-wisp, I would probably not follow it. While the book lends itself to reading for the hoodoo traditions and the artwork, and the story was a traditional tale of vengeance from beyond the grave and uneasy isolation, I felt that overall it was missing something. I wish there was a little more explaining but maybe it will come in later stories.
