## Europe Region WorldPhysio

It was developed at a national level with review by all regulators across the country and is the process of being implemented by a number of physical therapy regulators.

### I.A.P :

Nineteen MOs reported that there is a National Regulatory Body within their country, with seven taking a role in Quality Assurance of education.

### Guideline: Standards of physical therapy practice

Some issues around consent improved, as did privacy. Concerns about this heterogeneity led to the development of The Berlin Principles on Ranking of HEIs in 2006; a set of principles of quality and good practice for the delivery of university rankings.

## Europe Region WorldPhysio

Sanctions imposed due to poor levels of Quality Assurance were similar across countries and commonly included loss of approval, suspension of the programme, re-organisation and re-evaluation.

### Audit and Re

So long as you do this and can justify your decisions if asked to, it is very unlikely that you will not meet our standards.

### Audit and Re

The purpose of short term volunteering is to support unemployed physiotherapists to maintain their skills while they are looking for paid employment and to retain their interest in the profession, rather than leaving it permanently.

## Europe Region WorldPhysio

We will publicise any changes to the standards that we make by, for instance, publishing notes on our website and informing professional bodies. Conclusion In summary, it is essential that all relevant key stakeholders are involved in the QA processes of physiotherapy education.
