## Older adult students in their first year at university: Challenges, resources and support

### Age is no barrier: predictors of academic success in older learners

This study examined factors associated with university-level academic performance in older adults. Dealing with Basic Academic Weaknesses For those who are still in intermediate or secondary school, their list of strengths and weaknesses may vary.

### Mature students in higher education: Academic performance and intellectual ability

Improve learning videos and learning management systems listed some suggestions for making learning videos. They were not motivated by pleasure in their studies, perhaps due to their being in the survival mode all the time. This study shows that ageing—up to the eighth decade of life—is not an impediment, and that specific cognitive functions episodic memory and language processing capacity , in combination with attributes associated with lifetime engagement in cognitively stimulating activities, contribute toward academic performance.

### Finding and Understanding Your Academic Strengths and Weaknesses

Sociology of Education, 72 2 , 111-135.
