Leibniz

Translated and edited by G.

Leibniz, Gottfried Wilhelm

The theory of innate ideas does not imply that all minds have equal awareness of the truths of reason. But even when Leibniz accepts the common way of speaking — that is, as if the senses are causally responsible for some ideas — he has arguments against the empiricist claim that the senses are the origin of all ideas.

Leibniz's Philosophy of Mind (Stanford Encyclopedia of Philosophy)

Leibniz and the Natural World: Activity, Passivity, and Corporeal Substances in Leibniz's Philosophy, Dordrecht: Springer. Due to his belief in a rationally ordered universe, his commitment to the principle of sufficient reason, and his acceptance of innate ideas, Leibniz is rightly ranked along with and as one of the seminal early modern rationalists.

Gottfried Wilhelm Leibniz

Despite the great demands placed on Leibniz as librarian, then historian, and Privy Councillor at the court of Hanover, he was able to complete work that, in its breadth, depth, and sheer quantity, is staggering. The game takes you on hidden paths across the cemetery, past impressive tombs and statues and combines the great atmosphere of the cemetery with popular adventure game aspects. Each portion of matter can be conceived as a garden full of plants, and as a pond full of fish.

EMT

All created beings are limitations and imperfect; therefore evil and sin are necessary for created beings see Discourse on Metaphysics, §30. Cambridge: Cambridge University Press, 1988. Translated in: Remnant, Peter, and Bennett, Jonathan, trans.
