Operating log for cast iron heats.

Types of sand casting tools and equipment

To prevent unexpected accidents, fire and explosion-proof equipment have to be always ready. I was willing to trade out forge and power hammer time but found no takers might be why I landed the job. It is used for ramming the sand in bench moulding work.

Metal Casting Supplies

Aluminum alloys can be melted in graphite or silicon carbide crucibles.

Modernisation and Mechanisation of Foundries

Making patterns and hand molding with loose patterns was one of the last great arts that was learned by experience and being a Journeyman working in and with a variety of foundries.
