### Published Work

If it's the same person or the same group of people doing both, then it's self-published. Self-published books may be printed by a or a publisher that prints books by only that author. I read my work at open mics and it gets a great reaction, so some people post videos of me online.

### Published work

Beware of these...some people just can not be trusted to do the right thing when there is something to be gained. Use other peer-reviewed articles if possible but if there is a lack of published research reports and, for example, a pre-press version is available directly from the author, you may use it. Or am I better not putting the short piece out.

### Wikipedia:Identifying and using self
