Theology and Protest

. For theodicies of suffering, Weber argued that three different kinds of theodicy emerged—, , and —all of which attempt to satisfy the human need for meaning, and he believed that the quest for meaning, when considered in light of suffering, becomes the problem of suffering.

However, if Epicurus did write a discussion on the specific problems that Hume attributes to him, it would not have been tied with the question of an omnibenevolent and omniscient God, as Hume assumes for Hume does not cite, nor make any implication that he had knowledge of Epicurus's writings on this matter that held any greater weight than academic hearsay or legend. Tearing down statues will only give temporary catharsis, like a junkie getting a temporary fix. Wiesel's theological stance, illustrated through the intuitive possibilities of literature, is a theology of existentialist protest, which neither denies God, nor accepts theodicies.

Why We Need a Theology of Protest

Those who have hope put their trust in the Creator, who they know will return.
