## Newcastle upon Tyne Society Ltd

The building even became the first to use electric lightbulbs when the inventor Joseph Swan chose the Lit and Phil as the showcase for his latest invention. Originally published: London : Walter Scott, 1897.

## History of Literary and Philosophical Society of Newcastle upon Tyne

In 1635 a writer called Newcastle 'the fairest and richest town in England inferior for wealth and building to no city save London and Bristol'. All three have streets named after them.

## NDFHS

Redheugh road bridge was built in 1900. The establishment of the Literary and Philosophical Society of Newcastle upon Tyne in 1793 or the Lit and Phil as it is affectionately referred to attracted intellectuals and academics alike with its wide-ranging debates and plentiful literature in French, Spanish, German and Latin. There was also a Benedictine nunnery in Nun Street.

## Life of Mrs. Dorothy Lawson, of St. Anthony's, near Newcastle

Queen Victoria opened central railway station, which was designed by Dobson in 1850. In 2014 the population of Newcastle Upon Tyne was 289,000. Also included are regional geographies and volumes on environmental determinism, topographical analyses of England, China, ancient Jerusalem, and significant tracts of North America.

## NDFHS

After 1818 the streets were lit by gas. Located in the North East of England on the banks of the River Tyne, the city has undergone several transformations since it began life as a Roman fort on in 122AD.
