## Froebel's Kindergarten System

FOREST SCHOOLS Friedrich Froebel opened the first kindergarten in Germany in 1837.

## Friedrich Froebel

To this day, programs for 5 and some 6 year olds are called Kindergarten.

## Friedrich Froebel (1782

Thus, for Groos, the purpose of play was a preparation for life.

## Theories of Play

It is a school without books and any fixed academic assignments. Forest schools and nurseries are popping up around the globe and gaining momentum.

## What We Can Learn From Froebel's Kindergarten

Using play, songs, stories, and activities, the kindergarten was designed as an educational environment in which children, through their own self-activity, could develop in the right direction. Practitioners working with young children, either in group setting or in a home based setting, are key to helping children develop and learn.

## Froebel's Kindergarten System

When I caught up with the children at Cedarsong, they were in the process of making some very delicious mud pies! He does not want nature to

be physically analysed.

**Friedrich Froebel created Kindergarten and designed the Froebel Gifts and Blocks**

Children's Play and its Place in Education. Richmond, Virginia: William Byrd Press, Inc.

**Time tested early childhood theories and practices.**

As educational tools, these gardens provide real world applications of core mathematical concepts. Comenius felt that children should make connections between what they are learning and their real life encounters Keatinge, 1967.
