## Watson's Medical

Money back guarantee if you are not satisfied. The texts are short, covering what the authors describe as 'activities of daily living', which builds on the work of Virginia Henderson and Roper, Logan and Tierney's extension of Henderson's basic principles of nursing.

## 9780702011900: Watson's Medical

See more of our deals. The book describes relevant ideas from auditing of nursing services and presents a cyclical approach to its elements and how they relate to one another.

## **Watson's medical**

It is conceded by the authors that while the quest for quality should be vigorously pursued to meet the needs of patients and clients, there is a need for a systematic approach to the delivery of care which informs background professional concern with the concept of quality. Please note the Image in this listing is a stock photo and may not match the covers of the actual item, 2200 grams, ISBN: 9780702011900. Access-restricted-item true  
Addeddate 2021-07-24 19:00:42 Associated-names Royle, Joan A; Walsh, Mike, 1949-; Watson, Jeannette E.
