The canyon road goes up hill into the canyon for about 85 percent of the route. Their teacher only comes to the village three times a week, so the rest of the time they are on their own. The poster can be printed on canvas or any paper.

## Listen to the Wind: The Story of Dr. Greg & Three Cups of Tea by Greg Mortenson

Do you listen to the wind? It's amazing how well he was able to shorten the amazing story told in Three Cups of Tea down to a children's book and made it simple enough for them to understand and WANT TO MAKE A DIFFERENCE THEMSELVES!! Only by understanding each other and accepting our differences will we all be able to appreciate the things we have in common and live together in peace. You have to have your face right up in the book.

## Listen to The Wind

I recommend this book for students in K-2. The children of Korphe didn't have a school or any supplies, until one day a stranger named Greg Mortensen stumbled into their village. For younger grades teachers could use this as a read aloud to help spark discussion on the comparison of different countries, and cultures.

Every child should read this book to have a better understanding of what is happening in Pakistan at this moment in history. It is based in the small village of Korphe in the mountains of very rural Pakistan.

## Listen to The Wind

## **MERLE HAGGARD**

The story is told from the perspective of the children that live there.
