## Understanding Heart Problems After Cancer Treatment

They tend to disappear spontaneously as a child grows older and usually do not require treatment. Herceptin side effects Like almost all medicines, Herceptin can cause side effects, some of them severe.

## Your kidneys, liver, heart and lungs and cancer

The American Heart Association recommends getting less than 100 calories a day about 6 teaspoons of sugar for women, and less than 150 for men. These cardiologists with special expertise in cardio-oncology consult with their colleagues and see patients before, during and after cancer treatments.

## Understanding Heart Problems After Cancer Treatment

After that, it only takes about 30 minutes to get other doses of Herceptin. We asked oncologists at OHSU's Knight Cancer Institute about the connection between treatment and heart disease, and how they take this into account in treating their patients.

## The Link Between Breast Cancer and Heart Disease

Cardiac tumors: diagnosis and management. Herceptin is currently approved by the U. Doctors and nurses are aware that cancer treatment may sometimes lead to signs and symptoms of heart failure, even in patients with no previous heart problems, and may be able to adjust the type of cancer treatment in patients with previous heart failure.

## Cancer Treatment & the Heart

Herceptin can harm the developing fetus.

## The links between cancer treatment and heart disease: what to know

Your opinions are important to us. Unfortunately, most are not found until surgical removal is no longer possible. Ontruzant can harm the

developing fetus.

### **Heart Problems**

Reducing the dose or giving the drug in a different way.
