## British Consciousness and Identity

Important re-evaluations of Elton's interpretation can be found in C. The history of Britain was merely the history of England as and when it took place elsewhere.

## British Consciousness and Identity

Huge breakwaters were built, enclosing the largest artificial harbour of its day, 660 acres in extent. He included Adelaide as the only plan of an existing city in the illustrations for his book, Garden Cities of Tomorrow, citing it to support his argument for a park belt in communal ownership: Consider for a moment the case of a city in Australia which in some measure illustrates the principle for which I am contending.

Particular stress would here be laid on the position of the great earls and on provincial variations in law. Local historians and urban historians concentrated on particular regions and individual cities. The justification for these open London squares was mainly sanitary, with good ventilation then being regarded as the key to good health.
