Metaphysical Animal: Divine and Human in Man (Catholic Thought from Lublin) (9780820428833): Woznicki, Andrew, John Pinelli, Dir.of Business: Books

At death this incarnated part awakens from the dream of physical existence and

Filesize: 27.79 MB

reunites itself once more with its eternal condition. Thus the priests of antiquity accepted man as their textbook, and through the study of him learned to understand the greater and more abstruse mysteries of the celestial scheme of which they were a part. Descartes dismissed parrots vocalizing human words because he thought it was merely meaningless repetition.

Secret Teachings of All Ages: The Human Body in Symbolism

He devoted considerable attention in both the Origin and in the Descent of Man to animal behavior, with the obvious goal of demonstrating mental continuity among the species. This is less clear, but the following considerations are relevant. The vertebrate lineage represents just one of approximately 34 known phyla — ancient lineages of animals characterized by differences in fundamental anatomical organization and the developmental processes that generate it.

Biological Theory, 23, 218—230.

Edgar Cayce on Human Origins

Furthermore, as the source of Being is in the primal darkness which preceded light, so the spiritual nature of man is in the dark part of his being, for

the heart is on the left side.

Aristotle's Metaphysics (Stanford Encyclopedia of Philosophy)

Neurological similarities between humans and other animals have been taken to suggest commonality of conscious experience; all mammals share the same basic brain anatomy, and much is shared with vertebrates more generally. To deny to a sick child the life saving attention that it needs and the opportunity to learn and develop fully as a human being is not acceptable from the moral viewpoint, either in a slum of a modern city or in the jungle of the heart of Africa. When the mind and consciousness are instead allowed to sink downwards towards the lower, separative, selfish, and sensual things of life, it is Lower Manas, attaching itself to the principle of Kama, the Animal Soul.

Secret Teachings of All Ages: The Human Body in Symbolism

In the brain chamber the heart mystery was given. In Philosophy and Medical Welfare, eds. A third, more technical notion of consciousness, access consciousness, has been introduced by Block 1995 to capture the sense in which mental representations may be poised for use in rational control of action or speech.
